

Latest Returns

Retirement, Access and Term allocated pensions performance to 28 February 2010

The following table shows Local Super's net return for each investment option. The net return is determined by the variation in the net unit price that applied at the end of the previous unit price month.

Investment option	1 Month Net return %	Financial year to date Net return %	3 year Net return %	5 year Net return %	7 year Net return %
Australian shares	0.97	21.75	-4.75	N/A	N/A
International shares	-0.05	13.30	-8.61	N/A	N/A
Sustainable shares	0.01	17.18	-8.14	2.96	7.43
Growth	0.49	12.71	-1.45	6.07	9.01
Conservative	0.58	10.54	1.65	5.20	7.18
Cash	0.40	3.60	4.85	5.30	5.22

N/A means the investment option was not available during this period.

The returns detailed above are based on the movements in unit prices declared by the Trustee from time to time and are indicative only of investment earnings actually allocated to members. The actual investment earnings allocated to members are based on unit prices at the time transactions are processed.

PLEASE NOTE: Past performance is not a reliable indicator of future performance.
